Professional Summary

Computer Science Engineering student specializing in Artificial Intelligence & Data Science, with hands-on experience in Python and Playwright automation testing. Interested in software testing, automation, networking, and building practical solutions.

Skills

Python | Playwright | Pytest | HTML | CSS | SQL (Basics) | AI & Data Science (Basics) | Problem Solving | Communication | Teamwork | Adaptability | Time Management

Education

B.Tech in Computer Science Engineering – AI & Data Science — CGPA: 7.37
Satya Institute of Technology and Management (SITAM), Vizianagaram
2023 – 2027

Intermediate (MPC) — CGPA: 9.08
Vidwan Junior College, Bobbili
2021 – 2023

SSC (High School) — CGPA: 10.00
Abhyudaya High School, Bobbili
2021

Work Experience

Playwright Automation Intern | 1 Month
GVPATHSALA

- Worked on web application automation testing using Playwright with Python.
- Created automated test cases for functional testing of web application features.
- Used Playwright and Pytest for browser automation and test execution.
- Worked with web elements, locators, assertions, navigation, and automated test flows.
- Gained practical experience in automation testing, debugging, and test execution.

Projects

ParaBank Web Application Automation Testing
Automated functional testing of the ParaBank web application using Playwright with Python and Pytest. Automated modules including login, account creation, accounts overview, fund transfer, bill payment, request loan, contact information update, and logout.

Playwright Automation Testing Project
Developed reusable browser automation test cases using Python, Playwright, and Pytest, focusing on reliable functional validation and reducing manual testing effort.

Awards & Achievements

Internal Smart India Hackathon (SIH) – 2024 | Vizianagaram

- Led a team of 5 members.

Internship Technologies

Python | Playwright | Pytest | Git | Web Automation Testing
